Mindful Spending

A 50 / 30 / 20 money plan · workshop

Today

One made-up story, five tasks:

1. Split the income
2. Find the leak
3. Set a goal
4. An unexpected expense
5. Looking back

Nobody has to talk about their own money.

Where did the money go?

Do you know the feeling at the end of the month of not knowing where the money went?

50 / 30 / 20

- **Need 50 %** – housing, food, transport, phone
- **Fun 30 %** – coffee, cinema, subscriptions, gifts
- **Future me 20 %** – an emergency fund, goals, later investing

A starting frame, not a law. The ratios can be changed.

Future me first

Right after payday, send a part to your future self. Spend only after that.

What is left over cannot be relied on.

The amounts in the stories are net income: what arrives in the account.

Open the workshop

vedome-utraceni.vercel.app/?workshop=1&lang=en

Nothing to install, nobody signs in. The data stay on the phone and are deleted at the end.

Pick a story

- **Ema, 19** – a student with a part-time job – 11,600 Kč a month
- **Tomáš, 20** – first paycheck – 27,500 Kč a month
- **Lucie, 24** – moving in together – 32,000 Kč a month

The people and the money are made up. Try whatever you like.

1 · Split the income

Overview → split the income in one tap.

In Plan, break at least one part into real items.

Write it on worksheet 1.

Three kinds of expenses

- **Fixed** – the same every month: rent, phone
- **Controllable** – you decide as you go: coffee, delivery, shopping
- **One-off** – irregular, often unexpected: a repair, a fridge

2 · Find the leak

Which small thing added up the most?

780 Kč a month = 9,360 Kč a year

What could replace it so that the fun stays? Worksheet 2.

3 · Set a goal

target amount ÷ monthly for Future me = number of months

Ema: a driving licence · Tomáš: a three-month cushion · Lucie: a holiday together

Worksheet 3.

4 · An unexpected expense

Ema 2,490 Kč · Tomáš 1,800 Kč · Lucie 4,500 Kč

Which part pays for it? What will then be short of money?

An **emergency fund** is money set aside for exactly such moments.

When the plan does not add up

Spend less · earn more · postpone · borrow

Borrow: yes, no, or it depends?

1. A new phone in instalments, because the old one is slow
2. Repairing a fridge you cannot cook without, when the fund is not enough
3. A holiday on a credit card
4. A loan to pay off another loan

Ask yourself

- Is it a need or a want?
- Can I repay it even in a worse month?
- How much extra will I pay? Compare the APRC.
- What if my income drops?

5 · Looking back

What could be done differently next month?

What will you take into your own plan?

Worksheet 4 is for you only.

The end

Workshop → **End and delete**. On shared devices, always.

The questionnaire: anonymous, no signature.

Thank you.
